The winter was not particularly cold, and spring arrived slightly earlier than usual, with temperatures slightly above average, giving the vines' shoots the opportunity to uniformly develop. The following weeks saw frequent rainfall, which allowed the land to build water reserves, alternating with periods of dry weather, enabling the vines to continue growing without any problems. The damp conditions during flowering led to the formation of bunches that were slightly more sparse than usual and with rather small berries, ideal preconditions for reaching harvest time with perfectly ripe and healthy grapes. However, the feature that will make vintage 2016 particularly memorable is the excellent temperature range that characterized the months of July, August and September, with sunny days and cool, breezy nights. We therefore reached the beginning of October with grapes that exhibited a superb combination of maturity, acidity and aromatic potential, perfect conditions for the production of wines with a distinct personality and a great balance of concentration, elegance and longevity; a perfect reflection of the production philosophy of San Polo.

Intense ruby red colour. The nose expresses notes of ripe red fruits, floral aromas of violets, forest undergrowth and finishes with pleasant hints of aromatic wood. In the mouth it is warm, with a dense texture and persistence. San Polo's Brunello Vignavecchia is perfect for long aging and improves in the bottle, thanks to the characteristics of the land it comes from.

The elegance and harmonious structure of this wine are excellent with red meats, wild game including fowl, more elaborate dishes, and even mushrooms and truffles. Excellent with cheeses such as Parmigiano Reggiano and Tuscan pecorino.
